The Xerces Society : 100 Plants to Feed the Bees: Provide a Healthy Habitat to Help Pollinators Thrive before purchasing it in order to gauge whether or not it would be worth my time, and all praised 100 Plants to Feed the Bees: Provide a Healthy Habitat to Help Pollinators Thrive:

The international bee crisis is threatening our global food supply, but this user-friendly field guide shows what you can do to help protect our pollinators. The Xerces Society for Invertebrate Conservation offers browsable profiles of 100 common flowers, herbs, shrubs, and trees that support bees, butterflies, moths, and hummingbirds. The recommendations are simple: pick the right plants for pollinators, protect them from pesticides, and provide abundant

blooms throughout the growing season by mixing perennials with herbs and annuals! 100 Plants to Feed the Bees will empower homeowners, landscapers, apartment dwellers anyone with a scrap of yard or a window box to protect our pollinators.
