Within minutes of paging through this book we both stopped on the same page and knew we had found our's. Very pleased with the number of large color pictures and ideas. Our hot tub spot is sure to be the finest in Florida thanks to some of the ideas we gathered from this book!0 of 0 people found the following review helpful. Great ideas!By lickpurpleI saw this book in Home Depot but thought it was a little

pricy. Found it on for a fraction of the price, used, and the previous owner made a few notes in it that were actually helpful. Used doesn't bother me for things like this as I'm probably going to mark it up myself! anytime I find a pricy book I always turn to to see what deals I can get.0 of 0 people found the following review helpful.
