Modern homes only not traditional for ideas.By Beth W.This book is perfect for me, having just bought a small (700sf) modern cabin in the woods of California, it had all the relevant inspirational ideas I need to remodel. This is NOT a book for traditional cabin (I.e. log, gambrel or A frame) or small home (bungalow or craftsman) ideas, this has a very modern contemporary editorial slant and knowing that, this is not for everyone. Very happy with this purchase, but I can see where traditionalists will not enjoy.0 of 0 people found the following review helpful. Five StarsBy BrianBetter than i expected
