0 of 0 people found the following review helpful. Don't waste your moneyBy BradThere are no illustrations and the

basic idea is that they would rather supply 233 pages of words rather than an illustration. Many, if not all statements seem to be contradicted in another portion of the book. I would not have anyone use this. 1 of 1 people found the following review helpful. Can't use it alone. By Richard D. McCabe It's not designed to be a stand alone book since it refers to tables that are not in the book. The Black and Decker had the data and was far more succinct and well written. That's what I ended up using. Email me if you want to buy mine - it has almost no use on it.
