**International Code Council : 2012 International Plumbing Code (Includes International Private Sewage Disposal Code) (International Code Council Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised 2012 International Plumbing Code (Includes International Private Sewage Disposal Code) (International Code Council Series):

0 of 0 people found the following review helpful. Five Stars By RuffRider Yep, it's a code book... Came on time as expected. 0 of 0 people found the following review helpful. Best price on this book By Jeremy Gallimore If you are in the plumbing industry or planning to be this is the book you will need to memorize. It is a code book and they can be difficult to understand. This book was priced well below the bookstore at my school and was delivered very fast 0 of 0

people found the following review helpful. Very good book to refer to and works good for the ...By krystle richVery good book to refer to and works good for the plumber program at ur local college. It's what they go by and cheaper then buying it from school

With an emphasis on design and installation for optimum performance, the 2012 INTERNATIONAL PLUMBING CODE SOFTBOUND VERSION sets forth established requirements for plumbing systems. This important reference guide includes provisions for fixtures, piping, fittings, and devices, as well as design and installation methods for water supply, sanitary drainage, and storm drainage. The 2012 edition of the code includes the 2012 INTERNATIONAL PRIVATE SEWAGE DISPOSAL CODE, a companion guide that offers additional provisions for the design, installation, and inspection of private sewage disposal systems. Using both prescriptive- and performance-related specifications, this code provides comprehensive minimum regulations for a variety of plumbing facilities, facilitating the design and acceptance of new and innovative products, materials, and systems. .com New in the 2012 IPC Key changes include: Requirements for the design of a Siphonic Roof Drainage System have been added. Gray water recycling requirements have moved to the body of the code in a new Chapter 13. "Hydro-mechanical" and "Gravity" are the new terms for the two general types of grease interceptors. Air admittance valves complying with standard ASSE 1049 are now allowed for venting chemical waste systems. The length of a combination waste and vent system is now unlimited. The Single Stack Vent System method has been added. The code expands on suitable materials for pressurized sewage discharge applications and ratings.
