She didn't overwrite anything. It's all perfectly in balance with a charming sense of humor, and despite short diary entries, you glean a lot. The black and white photos are kind of hard to discern, but they're good enough. I really love this book. It would do well as a reprint. I'm not sure how many people discovered it when it was first published. It falls into the realm of classic literature on real life stories of women pursuing solitary wilderness adventures.5 of 5 people found the following review helpful. Following a dream revealedBy Elizabeth R. SneadLaurie Shepherd was a teacher who gave up her livelihood to build her own log cabin in northern Minnesota. This journal is her account of the building process with an explanation of her personal lifestyle choice and its satisfaction.I read this in one evening in about two hours. The narrative is so engaging that you want to keep on reading.0 of 0 people found the following review helpful. Five StarsBy freds girlGreat experience written first hand. Loved it
