My mother likes gardening and she's also religious so I thought the book would be good for her.I glanced through it but if I read it I'm sure I'd give it 5 stars.0 of 1 people found the following review helpful. No gardening; just GodBy Jeani RectorTerrible book. This has nothing to do with gardening; it is only about God. When it isn't quoting the Bible, it is quoting other authors. What a rip off. If I wanted nothing but God, I'd buy a Bible.5 of 5 people found the following review helpful. Gorgeous delightful spiritual bookBy A CustomerI could not resist picking this book up at the book store. And now I cannot put it down! Already I have given it to several friends as gifts (it is priced low enough to do that) and they think I'm totally brilliant because of my selection. I wish the author would do more on this topic. She obviously has much to offer her readers and does so with an

absolutely delightful passion for her subject.
