Unsurpassed in this field By Bookworm70 Although several books have been issued on Irish Great Houses, A Guide to Irish Country Houses by Mark Bence-Jones remain unsurpassed in this particular field of Irish History. The Author catalogued existing and ruined houses and put them all in this book. The popularity of this work is attested by the fact that this book is very difficult to obtain from Booksellers. In case you see one, do not hesitate to buy it. This book contains a lot of information.

Nearly 2000 Irish country houses are featured in this book, each having an alphabetical entry describing it. Almost all the entries give information on the history and ownership of the houses; many of them are enlivened with anecdotes and details. '
