Loretta Krupinski : A Maine Artist's Garden Journal before purchasing it in order to gage whether or not it would be worth my time, and all praised A Maine Artist's Garden Journal:

0 of 0 people found the following review helpful. Five StarsBy Rich KeatingBeautiful!2 of 4 people found the following review helpful. Somewhat more than a garden journalBy Joy L. RyanWonderful illustrations for a charming journal of gardening which provides many tips for caring for plants as well as one's inner spirit.2 of 3 people found the following review helpful. Colorful Combination of Art GardeningBy Virginia AllainI discovered this from a review in the Maine Sunday Telegram. I've tried nature journaling and so can really appreciate Krupinski's effort to document the birds and insects that visited her garden. The book goes beyond that, telling what she planted, and what she learned about pest control, care of roses and specific info on various plants and flowers.Her artwork makes each page a delight with all the garden creatures (rabbits, bugs, butterflies, birds and cats) and lots of flowers.The book would be particularly useful to anyone new to gardening in Maine, where the limited growing season and the thin topsoil present challenges.

Noted marine and children's-book artist Loretta Krupinski found that she had to relearn many of her gardening skills when she moved from Connecticut to coastal Maine. A practical gardener, she kept notebooks of what she learned. Her garden journal, with its superb watercolor illustrations, both instructs and delights.
