The challenges of gardening at 5280 feet above sea level, in what is a basically arid climate, leads many folks to fear they're limited in the garden they can create. The author provides the reader with the inspiration and insight to realize it's possible for people to have the garden of their dreams, wherever their garden grows!0 of 0 people found the following review helpful. book reviewBy Dana L. Walkerthe book was not what i was expecting but i still like it and am enjoying the contents i was thinking it was more of a design book but there are plenty of ideas in this book

The explosion of originality and diversity encountered in gardens in the Denver area is the focus of this inspiring volume. The full-color photography and delightful illustrations of these featured gardens will give you a birds-eye view of the possibilities for your own open-air places. There are gardening tips to enlighten and lively observations to

amuse as you tour local gardens of every size and variety.
