They are beautiful inside and out, so much inspiration and they make a lovely coffee table book, easy to pick up anytime you have a few minutes and a large cup of tea! I am collecting all of her books now and love them. Please read all the reviews, as I did, and make your own decision to purchase, you will not be sorry. Happy reading and between 3 and 4p, is tea time for me! :)2 of 2 people found the following review helpful. Charlotte Moss understands organized clutter whimsy!By Michele Lyon ThompsonI never tire of looking at a designer's work where a lot of thought and detail goes into each room. She doesn't disappoint. Unlike so many designers rooms where you see everything in a brief scanning of the room, she fills and delights each room. The renderings of rooms belonging to well known individuals are also a highlight of the book and are very well done. I enjoyed reading it from cover to cover and its lovely photos.0 of 0 people found the
