**Christine Walkden : A Year in Christine's Garden: The Secret Diary of a Garden Lover** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Year in Christine's Garden: The Secret Diary of a Garden Lover:

In this month-by-month diary, Christine Walkden takes readers on a charming journey through life, the universe, and most importantly gardening. Recounting the tales of the people she meets, her octogenarian neighbors, and the trips she goes on usually accompanied by her black Labrador, Marsi the book paints a picture of her life as a gardener, interwoven with lots of practical advice and tips for the reader. With her no-nonsense ways and her down-to-earth approach, readers will be charmed by Christine's enthusiasm and her irrepressible passion for gardening.

"Remember that bit of scrub ground between your front door and the road, adorned only by an empty chip bag and a can of cola? Well, it's time to feel guilty again as the Beeb bring us the wonderful Christine Walkden. Now the down-to-earth Lancastrian has been given her own show to pass on her down-to-earth advice...It almost makes you want to get out into the freezing cold and start weeding. Almost." -- Daily Mirror  
About the Author  
Christine Walkden is a former television host of Christines Garden and is a columnist for Amateur Gardening and Garden News.
