**Carolyn Herriot : A Year on the Garden Path: A 52-Week Organic Gardening Guide, Revised Second Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Year on the Garden Path: A 52-Week Organic Gardening Guide, Revised Second Edition:

0 of 0 people found the following review helpful. A fantastic gardener to help you raise your own garden throughout

the yearBy Dr. Scott CuthbertI bought this book just after starting my new garden this year in a dry landscape in Colorado. I had just come from a visit to Thomas Jefferson's Monticello, and with Carolyn Herriot's book I realized I was coming under the guidance of someone who loved gardening like Mr. Jefferson did.This book has helped me begin my discoveries in the garden about how to grow healthful, organic foods with a beautifully illustrated, lovely on the page, and easy-to-follow gardening guide. A Year on the Garden Path is full of practical, seasonally relevant information that will take me through my garden's year, week by week. Open to "Third Week of February" for instance, I discovered terrific, delightfully described insights on "Shedding Light on Shade", and "Perfect Plants for Impossible Places", "Slick Slug Control" and "Diane's List of Deerproof Plants". Most useful of all, given my garden's position on a hillside on the bluff above a river, the book's information translates to any gardening region or zone.In addition to being a great garden planner, A Year on the Garden Path is full of sage or plum advice, tasty and artful solutions to problems, and delicious recipes. Among many other lessons I've learned with this book, I've discovered the four secrets of successful soil building, the best ways to maintain a healthy, green lawn, ten tips for growing your best tomatoes, perennials with personality, and as a chiropractor and natural health practitioner I've learned about my non-toxic alternatives for treating pests and weeds.Carolyn Herriot's other books and especially her YouTube videos -- available for free -- all support her large ambition to help everyone on earth grow their own food and beautify their lives and homes with gardens.Highly recommended!!Author of Applied Kinesiology Essentials: The Missing Link in Health Care (2014), and Applied Kinesiology: Clinical Techniques for Lower Body Dysfunctions (2013)0 of 0 people found the following review helpful. Five StarsBy Abron RobersonWife loved it3 of 3 people found the following review helpful. Now in an updated second editionBy Midwest Book ReviewNow in an updated second edition, A Year on the Garden Path: A 52-Week Organic Gardening Guide is a practical walkthrough to creating healthy landscapes and food gardens organically. Packed cover to cover with great gardening tips and recipes, A Year on the Garden Path covers everything from soil building to maintaining a healthy green lawn, nontoxic antidotes to gardening problems, pruning, seed saving, plant propagation, and much more. Black-and-white photographs throughout enhance this step-by-step guide, filled with both general advice and suggestions specific to individual plant species.

Full of seasonally relevant, practical information, this bestselling weekly gardening guide can be picked up any day of the year for timely advice on how to create a beautiful, healthy ornamental landscape and food garden. Full of helpful tips and recipes, this highly illustrated book covers everything from soil building to pruning to four-season food growing and seed saving, interspersed with recipes, poetry and humour.Organic gardening expert Carolyn Herriot digs up:- four secrets of successful soil building- methods to maintain a healthy green lawn- non-toxic solutions to common garden problems- plants for impossible places and perennials with personality- pruning, plant propagation and more!

About the AuthorCarolyn Herriot is the author of the bestselling A Year on the Garden Path: A 52-Week Organic Gardening Guide, The Zero-Mile Diet: A Year-Round Guide to Growing Organic Food and, most recently, The Zero-Mile Diet Cookbook: Seasonal Recipes for Delicious Homegrown Food. She is much in demand as a speaker and workshop leader on organic gardening in the Pacific Northwest, with regular columns in BC Living andCommon Ground magazines. Carolyn grows her certified-organic seed business, Seeds of Victoria, at the Garden Path Centre for Organic Gardening in Victoria, BC.
