Steven Hampton : Advanced Lock Picking Secrets before purchasing it in order to gage whether or not it would be worth my time, and all praised Advanced Lock Picking Secrets:

8 of 9 people found the following review helpful. ADVANCED LOCK PICKING By jjstraub@worldnet.att.net THE BOOK WAS VERY SMALL, WITH VERY LITTLE INFORMATION ABOUT LOCK PICKING 2 of 2 people found

the following review helpful. I have read a lot of books on the subject but this one sucked!!!By ksmomof3This book is supposed to be about "lock picking" Ha HaThis book has nothing and I wouldn't take it if it was free!This book is not worth the money if you want a good book about lock picking, keep looking because this is not the book.In my opinion he is "money Bags" trying to make more money on another book...filling his pockets with money and giving you nothing in return.Steven Hampton did write a good book "Modern High Security Locks- how to open them.You can make your own opinion on this book but I have read a lot of books on the subject not including the movies I have watched.I recommend getting the movie "Lock Picking For The New Millennium" By David Storm -- He does a really nice job of showing the art of lock picking.1 of 1 people found the following review helpful. waste of time and moneyBy matthewhhthe advance secrets for finger sensitivity is "YOGA" what a joke. he refers to a few locks, like the american lock stainless being a tough lock! oh my god any amateur knows its a three second lock to open and two of them seconds is getting your tools out! please save your money if you are looking for a book you already know more than what is in this print. the new updated special personal tools that it describes, hmmm. don't waste the grinding wheel on these ideas.

This advanced manual brings locksmithing into the electronic age, with schematic diagrams for portable electronic picks to open magnetic key and card locks plus templates for making custom tools not available on the commercial market. Tips on enhancing finger sensitivity, increasing concentration power, constructing practice lock boxes and more will help you master the art and science of lock picking.

About the AuthorSteven Hampton became interested in locks and electronics at an early age. At 14 he acquired a set of U.S. Air Force electronic training manuals and began building various transistor circuits by scalping radios and junkyard TVs. At 17 he was making his own lockpicks and was considered a master lockpicker, and by the time he was 18 hed invented the magnetic padlock, which is still on the market today. After a stint in the navy, he studied digital electronics and worked in many technical fields. He also became interested in the martial arts, studying Tibetan White Crane kung fu, jujitsu and wing chun.
