Ortho Books : All About Evergreens (5259) before purchasing it in order to gauge whether or not it would be worth my time, and all praised All About Evergreens (5259):

0 of 0 people found the following review helpful. Info on evergreens By T Bowen Kind of humdrum, but informative. Not nearly as inspiring as other books on the subject. I'd say it's a vanilla flavor book. 0 of 0 people found the following review helpful. Great Primer on Evergreens By Berkshire Blueberry Michael Dirr is a god to Master Gardeners when it comes to trees and shrubs, and he adapts his style nicely to this Ortho series of books, which were my very first primers in the gardening world. I still go back to all of them, and this one in particular is concise, thorough and pretty darn comprehensive!

Learn how to select, identify, plant, and care for all kinds of evergreen trees and shrubs. This excellent resource

includes all the popular conifers and most of the hardy broadleaved evergreens, and highlights dozens of ideas for landscape use and designing with evergreens, too.
