They also love writing and this journal combines both. Who knows maybe one of them will be a food critic and this will have been their inspiration. I highly recommend this and any product from the Thinking Tree.0 of 0 people found the following review helpful. Really Nice Little Book!By Momtographer[[VIDEOID:4aaaabe0d40a70a8dc665aae9730897]] Cute little book! Health is a required subject in my state, so we may use this next year to learn about food :)I received this at a discount in exchange for my honest review. I have a YouTube channel featuring a ton of these books and many of them I purchased myself! Check out the video in the listing for details.

This is a blank book with lined pages and small illustrations for all ages! Students can color the cute food illustrations on each page and add stories, recipes, poems, food facts and meal planning ideas and garden dreams to the empty lines.
