S A Sanders : All About Greenhouse Gardening: Fresh Healthy Produce 365 Days a Year. before purchasing it in order to gage whether or not it would be worth my time, and all praised All About Greenhouse Gardening: Fresh Healthy Produce 365 Days a Year.:

0 of 0 people found the following review helpful. Pretty decent bookBy Book Junkie "K"The other reviewer pointed out that this book has large print, which is correct. I did find however that a lot of that large print has some good information.The other reviewer also pointed out that the book had few pages. The description says 56 pages so I'm not

sure how anyone could be surprised seeing there are only 56 pages?It's not the best book on greenhouses I've ever seen but it's not bad either.The small size makes it easy to carry for reference.0 of 0 people found the following review helpful. sorry I bought thisbeware it is uselessBy MJI feel this author is capitalising on rising interest in home gardening. It has few pages, incredibly large print. widely spaced lines and minimal content. Do not waste your money.

Even if you've never used a greenhouse a day in your life, this greenhouse growing guide will help you to become an expert in no time. This book will give you all the information you need to make you feel more like the professional greenhouse grower! Your learning will mean better health for your family and no more tasteless produce in the winter. And if you ever have too much produce, there will always be people ready to pay cash for fresh produce. Talk about the perfect backyard business. Inside this book you will discover many different things including techniques, tools, materials and more! Not only will you learn the tips and tricks of the experts, you will also learn *extra* bonus tips. These tips include helping you find the right greenhouse for you and where you live. You will learn about building a greenhouse including choosing the proper framing and covering for your greenhouse.No need to spend hours and hours at the library doing research! It's all here, in one volume.Everyone that visits your greenhouse will wonder how you learned so much so quickly. And once they taste your tomatoes, they'll be back to visit often asking advice. Become a greenhouse expert, feed your family healthy produce and maybe make a few bucks on the side. And don't forget the kids. When given a chance children of all ages love to grow plants and work in the garden. Now you can have the opportunity to spend quality time with your children, or grandchildren, 365 days a year.
