Barbara Ferguson Stremple : All About Growing Fruits, Berries, and Nuts (Ortho's All about) before purchasing it in order to gauge whether or not it would be worth my time, and all praised All About Growing Fruits, Berries, and Nuts (Ortho's All about):

0 of 0 people found the following review helpful. My go-to home "orchard" book! By gret This is my go-to book for my small orchard (7 trees) and our grapes. I use it to determine problems and as a guide for trimming the trees to keep them from getting too tall or too full. I've also used it to try an espalier apple tree. It's got just the right amount of information to help me without being overwhelming. 1 of 1 people found the following review helpful. This book gives very good basic information By Bosco This book gives very good basic information. I would recommend this book to anyone looking to start raising berries and fruits. 0 of 0 people found the following review helpful. Five Stars By Deme Thanks

Grow fresh fruit and nuts in your own garden. Complete instructions for over 100 varieties, selected for all parts of the country, are included here. You will also learn how to get the most fruit out of small gardens, and how to use fruit trees as ornamentals.
