This is followed by the recipe featuring the crop item. I would have liked more crops featured, even a section of more unusual crops so I could be inspired to grow and eat new items too.0 of 0 people found the following review helpful. Square Foot GardeningBy Kathleen SammonsI love to cook and since my retirement I have also taken to growing my own vegetables. I purchase this to see if I could make a better plan to grow and then use my garden the whole year. We have had an exceptional cold winter, so my plans are on hold now.0 of 0 people found the following review helpful. Good practical adviceBy Terry CothronThe book is practical and easy to understand. The advice and instructions are fundamental; one does not necessarily need experience to implement the recommendations. Now to put it into practice. I've already bought a copy for my daughter
