**Agnes Laube : Archigraphy: Lettering on Buildings** before purchasing it in order to gage whether or not it would be worth my time, and all praised Archigraphy: Lettering on Buildings:

Lettering on buildings and in the public realm affects our environment. The core of this manual is formed by archigraphy projects that represent a strategy of how architecture can be enriched by graphic elements. The structural, material or visual methods can thus be used as inspiration for the reader's own designs. A compilation of lettering techniques, advice on project management, make this manual a tool for architects and graphic designers.
