**Robert Fitzgerald : Architecture and Design Library: Italian Country (Arch Design Library)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Architecture and Design Library: Italian Country (Arch Design Library):

0 of 0 people found the following review helpful. Beautiful bookBy Janice RobinsonThis is a tabletop book. It is well photographed-i bought it to look at interiors of Italian country houses and i would have liked more interiors rather than exteriors, but it was a good purchase.0 of 2 people found the following review helpful. Questionable SellerBy lynne grebilI received a different book then this one. Different year, no dust jacket (which was not specified). Contacted Seller and they said that it was a mistake and they could not send me the correct one because could not be located in their inventory. I went back on line and they were still advertising this same book for sale as their "last one". Seemed a bit shady to me!Was supposed to receive a credit but have not seen this happen yet.25 of 26 people found the following review helpful. Picturesque and refined!By Crystal C. FreelandI purchased this book some time ago and have used its elements in decorating a guest bedroom and a formal dining room in my own home. The pictures are

beautiful and the furnishings divine. It gave me so many wonderful ideas for the other rooms of my house that it is beginning to show the ravages of time! Definitely worth the money, a wonderful coffee table book or conversation piece--or, in my case, an inspiration to decorate! The only drawback is in finding the same sort of furnishings here in the Midwest at a reasonable price! I am very satisfied with my purchase.

Very Good. Colorful pics
