By Ray Faulk Dominique Browning is full of insight and grace when it comes to understanding the hearts and minds of those who have suffered a loss of "place". I absolutely LOVED the book - I could not replace my now out-of-print hard copy - but this paperback is worth its weight in gold. 5 of 5 people found the following review helpful. Great writer! By Kiki Buy this book for anyone you know going thru divorce or for one who has always wanted a home, or decorated a home or loved a home. Dominique is in your head and writes it just like you feel and wish you could express! She is your copilot, your emotions, the spokesperson for your grief, your fears, your hope and your joy. She's beside you and makes you smile. This will go on my favorites shelf to be shared and bought again and again and again! 1 of 1 people found the following review helpful. My World Exactly By L. Millette I loved this book because I could so relate to it. When my husband died, I became a gardener. I create and nature takes it away. So, I recreate. It's been awhile since I read this but I have shared it and keep it in my library to reread as desired. Will be doing that soon, as there was mention of a tree or two that I wish to try in my yard.
