**From Western Media Products : Ask a Plumber (AudioTopics)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ask a Plumber (AudioTopics):

The first in our home repair and maintenance series, Ask a Plumber is 3-1/2 hours of conversation with a 27-year veteran plumber. In a fun and relaxed manner, your host and guest go through the entire house explaining water and gas systems and fixtures giving fixit and maintenance tips. This should be in your home repair library. The lessons you

learn will immediately save you hundred of dollars in plumber house calls.
