Interesting to see how Sarah and her family live. She is, by far, my favourite interior designer and this book did not disappoint. Wonderful, understated class on every page and Sara shows people like me how to look outside the square and use your imagination. Thoroughly recommend this book.2 of 2 people found the following review helpful. Nice but nothing you haven't seen on TVBy KannI am a Sarah fan - but if you are and have seen her TV shows, then there's really nothing new here. The photos are beautiful and the styling and the homes shown in this book are all Sarah's personal residences past or present and have all been seen in TV.0 of 0 people found the following review helpful. Love it!By karen in milfordLove Sarah's style, so I was bound to love this book. Dreamy photos and great text make this book both inspirational AND useful. Now, if I could only

figure out a way to get her to come to my house and redo it... But seriously, I like the organization of the book and the way she describes putting room together.
