Workman Publishing : Audubon Wildflowers Calendar 2012 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Audubon Wildflowers Calendar 2012:

6 of 6 people found the following review helpful. great calendar By Marjorie I get this calendar every year. It's got great photos and a heavy gauge paper that holds up to humidity and doesn't curl. Love it. 0 of 0 people found the following review helpful. Nice calendar. By Angus Nice calendar. 0 of 0 people found the following review helpful. Refreshing Views By G. Burke This calendar was beautiful and colorful. Every month was a joy to see the new scene and colorful flowers. As a "bedroom artist", I was gifted with ideas to paint. Loved it.

Gilding landscapes with their color and fragrance, wildflowers are a delight wherever they grow, from a mountain meadow dense with Indian Paintbrush and pale blue Lupine in the Paradise Valley in Mount Rainier National Park to a carpet of Mexican Gold Poppies. With a dozen portraits of North American wildflowers in their native habitats, gorgeously photographed in full color, Wildflowers is a showcase for some of nature's loveliest and most ephemeral creations.
