Everett Moore : Aunt Bessies Wood Stove Cookbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Aunt Bessies Wood Stove Cookbook:

2 of 2 people found the following review helpful. Not as expectedBy idahoannieThis was not as I expected. I just purchased a wood cook stove and wanted specific information and recipes that pertained to its use. This book is mostly for entertainment, providing "old time" hints and recipes. I knew it was a cookbook but thought the directions would read more like "build a medium fire in your firebox" and have ideas for how long it takes to heat up an oven generally, how to hold a fire and how this effects recipes.The recipes in this book were standard and didn't reference the wood cookstove at all. Its basically just a re-print of a cookbook that came with a cookstove in 1915 when everyone knew how to use a wood cookstove.0 of 0 people found the following review helpful. Wonderful Old Style CookbookBy mlw825I love this book and I am sure the person I purchased it for will love it as well.1 of 5 people found the following review helpful. found it againBy Customeri was given this book years ago. through moves i lost it. i found it

again and i bought it as a gift for my aunt. she loves to cook
