**M. A. Hernandez : Barcelona Tile Designs** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Barcelona Tile Designs:

1 of 1 people found the following review helpful. Barcelona Tile Designs By Customer All aspects just fine. This is an excellent item and as described, ordering process simple, timely delivery, well packaged. Will use this company again. If you're an artist of any media who like/uses/is interested in Tile, you'll be more than happy. I particularly like the organization and the addition of the CD is such a gift. 0 of 0 people found the following review helpful. Great resource for studying encaustic tiles. By Anthony Ervin The book has great visual appeal. The tile designs give lots of inspiration for creating art and I love the use of complimentary and contrasting colors on the same tile. I've got an idea in my head to start making some of these encaustic tiles, and this book will be a great asset for creating my first designs. 1 of 1 people found the following review helpful. Great book for ideas. Very Small Format By Buyer in TX The book size is very small. Be aware that it measures about 15x15cm. It has beautiful photos and that paper quality is good. I like the book, overall.

Walk into a bar or restaurant in Barcelona and chances are that you will encounter a beautiful tile pattern on the floor. In the late 19th century, mass reproduction of intricately designed floor tiles became possible, and they became a common feature in the interiors of buildings in cities all around the Mediterranean. In Barcelona, the design of such tiles reached its peak in the age of 'Modernismo', the Spanish variety of Art Nouveau, in the early 20th century. BARCELONA TILE DESIGNS features a colourful collection of carefully restored and digitized designs. Both single

tiles and whole patterns and borders are shown, and the files on the CD make it possible to create designs in any shape and size. A great resource for design professionals and hobbyists alike.

From the Inside Flap Walk into a bar or restaurant in Barcelona and chances are that you will encounter a beautiful tile pattern on the floor.
