Stunning Book - Butera is a MasterBy Docia RoseI fell in love with his work when he had a house on HGTV - its been a while but it could actually have been the house this book is built around. Barclay works within a specific color palette in this book so there's a lot of red/white/blue and its about 'coastal' themes - I'm actually not working in that palette or in coastal themes and I'm still MAD for this book - there are a zillion superb pictures - you can take each picture, deconstruct it and get amazing inspirations for your own homes - everything from the mix of furniture, the art, the lamps - its JUST great. He needs to do more books. I search regularly to make sure if he does another book I find it as quickly as possible so I can order it. What a great find. I bought it sight unseen just based on what I saw him do on HGTV and I was NOT DISAPPOINTED!8 of 8 people found the following review helpful. Fabulous!By Seattle SueOwning a small traditional coastal house, I keep an eye out for books on coastal decorating. This book does not disappoint, especially if you love rooms inspired by British Colonial and traditional style. The rooms are beautifully done. For someone who loves a coastal or nautical style done

well and without being over the top, there are pages of beautifully photographed examples. While its clear these rooms were done professionally, they offer inspiration in architectural moldings and detail, color, furniture and its placement, fabrics and accessories that thoughtfully and artfully done. Destined to be a classic reference. 2 of 2 people found the following review helpful. This book should be a catalog of Barclay Butera's furniture ...By lulubaby This book should be a catalog of Barclay Butera's furniture as every single room setting has his furniture line. And let's not forget the ridiculous overstuffed pillows on every chair, sofa and bed. Does anyone normal really have 7 stuffed pillows on their bed or every house comes with a maid? I was really looking forward to this book but got really angry how weak on design it is.

Contemporary, casual elegance for a beach lifestyle. Renowned designer Barclay Butera takes his signature style of pattern-on-pattern and transitional charm to the coast.
