Francisco Asensio Cerver, Aidan Walker : Bars Restaurants (Designing with Light) before purchasing it in order to gage whether or not it would be worth my time, and all praised Bars Restaurants (Designing with Light):

13 of 15 people found the following review helpful. poor picturesBy Jiayang YuanSitting in a bar you can always feel the charm of the lights. Great lighting makes bars especially vivid. Light design is the key point for bars designs. I am disappointed when I got this book. Pictures of bars in this book are unattractive. Because of the ordinary pictures, lightings here have no charm at all. I bought two other books about light Light Style and The Art of Illumination. I think these two books are more helpful with better pictures and more descriptions.
