This is an inspiring collection of modest gardens that every home greenthumb should have.2 of 2 people found the following review helpful. Day dreaming...By StormeeThis book makes me day dream about the possibilities for my 80 year old bungalow. I love "before after" books and magazines and these makeovers are inspiring. Maybe most of the makeovers are professionally planned and executed, but it gives me great ideas and pointers. Lots of lovely photos and details - highly recommend for the aspiring gardener/home improvement buff.0 of 0 people found the following review helpful. Five StarsBy Dereth WrightA favorite book, I purchased it for an article, previously read, on a front-yard landscape I loved.
