0 of 1 people found the following review helpful. not a good bookBy backdocThis book is way too high level. Do waste your money on this book. There's hardly any information about gates, and that's the main reason I purchased this book. So, I don't think this book will be any benefit to me at all.0 of 0 people found the following review helpful. Fences and GatesBy dandee57Very nice book. Gave my husband some good ideas. He knew what he wanted to do and this book helped him make decisions on how to make a fence even more attractive. Is also good for young son who is just learning to do things for himself.

Step-by-step photographs and illustrations guide homeowners through every step of the process. Includes a comprehensive skills and techniques section along with must-have information about the tools and materials used to build fences and gates. The one-stop guide for homeowners looking to tackle residential fencing or gate projects from start to finish.
