I appreciate straightforwardness and conciseness as well as the whys and I know I'll refer to it again although the ideas are very easy to remember. I love the humor!0 of 0 people found the following review helpful. When you need some design tips, not a degreeBy GR81I loved this book because it gave me some guidelines to follow for decorating my house in a straightforward way. It has enough information without feeling like too much information. A quick and entertaining read!0 of 0 people found the following review helpful. Enjoyed!By Mary E AhoVery informative and clear, concise instruction to get the end result

you want. I would have given it 5 stars except some of the text was presented in highlight color blocks that were so deep in color the text was difficult to read. I wished for lighter background color for these poor aging eyes. But even so it was so well written that I can call it one of my favorites in my library of decorating books. Thanks.

As seen on the TODAY Show! Homeowners and renters of all means dream of having a beautiful home.
