Laure Paquette : Bioterrorism in Medical and Healthcare Administration (Public Administration and Public Policy) before purchasing it in order to gage whether or not it would be worth my time, and all praised Bioterrorism

in Medical and Healthcare Administration (Public Administration and Public Policy):

Bioterrorism in Medical and Healthcare Administration provides an efficient method to identify, manage, and control transformations in the provision of health services during elevated levels of bioterrorist threat - offering step-by-step procedures and templates to prepare and implement a coordinated response to high-alert situations. Outlines procedures to analyze events of significance, properly train personnel, maintain working relationships among various groups, and effectively cope with the threat or use of bioweaponry. Essential to public health preparedness, this book explains how to conduct strategic and tactical analyses to determine and control health service operation. It provides tools for change that can be utilized by anyone inside or outside the health care system, at any level, and in a unit of any size. The reference contains 50 worksheets that allow for clear layout and understanding of the schemes and tactics outlined in the text. It also includes case studies that showcase strategies used by individuals, infranational groups, supranational groups, governments, and groups of governments to counter bioterrorist threats
