**Derek Jones : Bird, Bee Bug Houses: Simple Projects for Your Garden** before purchasing it in order to gage whether or not it would be worth my time, and all praised Bird, Bee Bug Houses: Simple Projects for Your Garden:

0 of 0 people found the following review helpful. good for someone that never cut a piece of wood beforeBy JOHN O.this book spent more time with using shop tools then the house designs. I wished more on Bee Houses and there was very little on this. this book will get a crafter's head spinning with ideas.1 of 1 people found the following review helpful. It's my thingBy One Person's OpinionIf you love small building projects and the outdoor creatures, then this is a fun book to own. The projects are well illustrated and the instructions are easy to follow.0 of 0 people found the following review helpful. It was not what I expected - great for someone who is into simple woodworkingBy Susan T.It was not what I expected - great for someone who is into simple woodworking. It looks like fun !

Transform any garden into a wildlife haven by creating perfect nesting places for birds, bats, bees, butterflies, lacewings, and ladybugs. All that's needed are a few basic woodworking techniques, tools, and materials (some recycled or scavenged) to complete these 18 projects. Every project comes with an exploded diagram and cutting list, and there's information on choosing locations, maintenance, species habits, and nesting requirements.

About the Author Derek Jones began his career in the woodworking industry as an apprentice to a cabinetmaker, learning on the job the meticulous skills needed for fine furniture making. He went on to do an HND in 3D Design and began taking on his own bespoke furniture and joinery commissions. After time spent developing his design and project management skills, he is now the editor of Furniture Cabinetmaking magazine. Also available: Rustic Garden Furniture Accessories 9781600591372
