**Edward A. Baldwin : Birdfeeders, Shelters and Baths (Over 25 Complete Step-By-Step Projects for the Weekend Woodw)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Birdfeeders, Shelters and Baths (Over 25 Complete Step-By-Step Projects for the Weekend Woodw):

Birdfeeders Shelters BathsBy A CustomerAn excellent book that illustrates how to make some very nice birdhouses that vary from the easy to the complex like the one on the cover. I'm building the one on the cover and am having a lot of fun! The best birdfeeder book I've seen so far.1 of 1 people found the following review helpful. Birdfeeders, Shelters and Baths (Weekend Workshop Collection) Hardcover by Edward A. BaldwinBy CDP's Onceagain habit of purchasingI purchased this book, "Birdfeeders, Shelters and Baths",

from the Syndicated Weekend Workshop Collection of Story Publishing as a Hardcover by Edward A. Baldwin, to add to my collection of books I purchase to aid me in building Bird Houses and Feeders to place in the woods around my area, other's backyards and for gifts. This book was once in the Anoka County Library, of Blain, MN. Purchasing used books allows me to own more books than I would ever own, if I purchased all of them New. I do buy books new, but for my woodworking shop, idea books are purchased so I might gain some new ideas, insights and sometimes bird know how I would have to learn from other sources and builders I know. This book has a section of house plans to complete the book, preceded by four pages of color pictures, showing some of the birdhouses, feeders and ideas as built. Most of the book's pictures and drawings are not colored and this is an older book, published originally in 1990 by Garden Way Publishing. This book is dated and somewhat limited in both plans and ideas. I am still glad I purchased it and it cost me \$0.19 plus delivery costs. Can hardly complain about that and it is well worth the cost. I like it. 0 of 0 people found the following review helpful. Nice ProjectsBy Kenneth M. Got this for Winter projects. I have lots of people asking me to make them Bird Houses and Feeders for the Spring. Some very interesting designs....This one even included designs for Bird Baths!

Transform your backyard into an avian wonderland as you build a variety of squirrel-proof birdfeeders, shelters, and baths that are sure to attract all of your favorite feathered friends. Edward A. Baldwin provides clear instructions for more than 25 easy-to-make projects that include a Juice Bottle Feeder, a Pie-Tin Birdbath, and even a Swiss Chalet Birdfeeder. You'll soon have an up-close view of the impossible mechanics of hummingbird flight as you enjoy afternoons full of cheerful chirping.

From the Back Cover Here are over 25 step-by-step designs for a wide range of birdfeeders, baths, and even a roosting box that will attract birds to your backyard throughout the year. Each project is unique, easy to build, with step-by-step illustrations and instructions. In addition to the actual project plans, Edward A. Baldwin, author of *The Weekend Workshop* syndicated newspaper column and over twenty-five books, tells you how to control unwanted squirrels and other predators, and how to provide the proper environment for birds. Included in *Birdfeeders, Shelters Baths* are: -- How to Attract Birds to Your Yard -- Construction Tips and Pointers -- Bottle Feeders -- Multiseed Feeders -- Octagonal Multistation Feeder -- Semi-Squirrel-Proof Feeder -- Window Feeders -- Hummingbird Feeders And much, much more!
