This book is very small in size (approximately 6 inches by 6 inches) and fits perfectly on the shabby chic end table in my sunroom right by my Lorenzo Padilla birdhouse! (Great conversation piece as well!) The birdhouse artists' biographies, birdhouse descriptions and pictures are beautifully written and stunningly photographed1 of 1 people found the following review helpful. BEAUTIFUL BIRDHOUSES!By Leslie F GoldThis is a fascinating look at the amazingly creative and beautiful houses with which craftspeople have treated their backyard birds. The assorted styles and materials used are astonishing, unique, and clever. Many would do well finding a place in a craft museum.You will be tempted to make one of your own, or to contact one of the artists whose work appears in this book. A great gift for architecture enthusiasts and birders!3 of 3 people found the following review helpful. GREAT book for the birdlover.By EdgarBeautiful pics and interesting articles about the various houses illustrated. I gave a copy to my Mom and Dad and they loved it. Dad likes to putz around in his wood shop and this book gave him some nice ideas. Mom just loved the artistic aspect of the

Birdhouses of the World offers readers a curated collection of beautiful, whimsical, stop-you-in-your-tracks amazing birdhouses created by designers and bird lovers around the world. Bird expert and author Anne Schmauss provides a brief history of birdhouses and lists the kinds of birds that inhabit them, as well as the types of structures that attract various species. Most important in her selection for this book is the wow factor: These birdhouses are spectacular in their creativity, ingenuity, and sheer originality. With styles ranging from sleek modern to elaborate Victorian, they are as varied as human houses. Illustrating the wide-ranging designs found throughout the world, and even including the birdhouse of filmmaker George Lucas, this book is a captivating look at the creativity that can result when a functional structure is infused with a love of birds.

[Author Anne] Schmauss searched the world to showcase the coolest birdhouses and tell their stories. And what birdhouses she has found.
