Great book for handy man or woodwork teacherBy GCAs a teacher of woodwork, I am always looking for projects that I can modify or use in class to help teach woodworking techniques to my students. Even though most of the projects are aimed at adults who have access to a range of electrical tools, I have been able to modify the tools needed so my students are able to safely recreate some of the projects contained within this book. I have enjoyed using this book, because the individual stages of all of the projects are so well laid out.2 of 2

Great color photos and instructions, and the cut and material lists make the projects much easier to do. Great selection of projects for the average woodworker. I highly recommend this book!

Build beautiful and functional furnishings and accessories for your home. This book provides step by step instructions with clear photographs, as well as cutting lists and technical drawings for each project. This comprehensive book also includes materials descriptions and basic woodworking and finishing techniques. Every project can be completed with standard hand tools and a basic power tools like a circular saw, drill, jig saw, power sander, router, or power miter saw. This hardcover book with internal spiral binding is 6.5in x 8in, a perfect size for carpenters and woodworkers to keep near their workbench or toolbox for quick access. The design of this book allows it to lay open flat, which allows for easy and frequent reference, and the interior photographs, illustrations and diagrams, make the learning process simple and fun for beginners, and provides useful tips for more advanced readers. Descriptions of the materials, tools, and different types of wood will guide readers through setting up their workshop and beginning projects. Sections on woodworking and finishing techniques walk readers step-by-step through not only creating, but also beautifying household objects. This book makes a perfect gift for any beginning carpenter, and is a must-have addition to any experienced woodworker's workshop.
