have that. It did contain some great illustrations and ideas for outdoor structures, but if you are planning on building it yourself, you'll need a lot more than this book to find your information.0 of 0 people found the following review helpful. Don't waste your moneyBy Wayne A. SeavoltThis is not complete nor well thought out. The coverage is spotty at best where then introduce something but do not really cover step by step how to.0 of 0 people found the following review helpful. Three StarsBy Michael R.Did not have the plans I was looking for

The most complete book on gazebos and arbors you can buy.The Complete Guide to Gazebos Arbors shows basic techniques for building sheltering structures in the landscape, and provides complete project plans and directions for more than 12 versatile, flexible architectural projects. An overhead arbor can turn a patio or deck into a cool oasis from which to enjoy a landscape, while a gazebo can serve as a full-fledged outdoor room with protective walls, ceilings, and even electrical service. Every reader will find this book to be an indispensable source of planning, design, and practical how-to information.
