From Creative Publishing international : Black Decker The Complete Guide to Greenhouses Garden Projects: Greenhouses, Cold Frames, Compost Bins, Trellises, Planting Beds, Potting Benches More by Philip Schmidt (Mar 1 2011) before purchasing it in order to gage whether or not it would be worth my time, and all praised Black Decker The Complete Guide to Greenhouses Garden Projects: Greenhouses, Cold Frames, Compost Bins, Trellises, Planting Beds, Potting Benches More by Philip Schmidt (Mar 1 2011):

0 of 0 people found the following review helpful. Excellent referenceBy Big DaddyI have several of the Black Decker books, and I very favorably impressed with them. This one is no exception. Whether I sit down to read it through, or just flip pages at random, I like what I find! Interesting as a straight through read, or as a random page flipper, I am a fan of the Black Decker books. I never pick up one of them without finding new ideas not necessarily earth shakers, mind you, but far more than what merely holds my interest. If you buy this book to get ideas for a small greenhouse, you will succeed in that aim. However, the section on other garden projects is a source of lots of fun possibilities more than I expected!I don't think you will be disappointed!0 of 0 people found the following review helpful. Three StarsBy

Linda MGood book that covers a range of topics, not too much about cold frames though.
