Cabinetry -Remodeling ... on a Budget (Black Decker Complete Guide):

4 of 4 people found the following review helpful. Good first reference
By nealhowardk
This book, although not comprehensive, has enough info to give you a clear understanding of what it would take to remodel your kitchen. For the price it is good first reference to let you see if you want to tackle this yourself!

Very happy. Good addition to my how to books.

A new edition to the bestselling *The Complete Guide to Kitchens*, this updated book looks beyond the world of 500-square-foot kitchens with professional stainless steel appliances and presents a host of creative remodeling and updating projects that make sense for anyone. From converting a closet into a pantry to replacing old countertops and cabinets, this book is packed with clear photos and step-by-step instructions for the home DIYer. A companion DVD shows you how to install the most popular types of kitchen cabinets and countertops.

About the Author
Creative Publishing international is a worldwide publisher of how-to books. The company's current retail offering includes over 300 titles on topics covering home improvement, home decorating, sewing, crafting, hunting fishing, and photography. Over the past 15 years, CPI has developed high-quality photography step-by-step books with nationally recognized brand partners like Black Decker and Singer.
