The bigger book goes into more detail than this one; but, this one is still a nice little basic bonsai book. If you are looking for a bonsai how-to book, you may want to look at the bigger book; although, it's not a how-to book as it is a reference book.0 of 0 people found the following review helpful. What a great informative little bookBy FreshSharkeggsHoly crap! This book is TINY. Like 20 pages

or so but it is PACKED with information.

This guide to caring for bonsai is divided into 101 stand-alone explanations which can be grasped in moments. Step-by-step photographs are combined with an informative text.

"This is a great book for someone who is new to bonsai or needs to be exposed to the art." of Bonsai Magazine
