**Gregory Moto : Bonsai for Beginners: The Ultimate Guide to Bonsai Growing, Bonsai Care, and Sculpting for Newcomers** before purchasing it in order to gage whether or not it would be worth my time, and all praised Bonsai for Beginners: The Ultimate Guide to Bonsai Growing, Bonsai Care, and Sculpting for Newcomers:

3 of 3 people found the following review helpful. Regret buyingBy Y. ChenThe author rambles fluff and throws in some unspecific pointers that are too vague to be helpful. The images sometimes don't match what text is talking about, and some are lifted off of other people's bonsai websites. It reads like a draft of ideas not fully formed, passed to someone else who just filled in with junk. It's a night-before-due cram job. Look to other books for actually useful info. There are better writings online for free by dedicated hobbyists and pros. I got this ebook because it was #1 and learned my lesson: # in rank is not automatically good - could be manipulation.2 of 2 people found the following review helpful. Impressive and useful bookBy Jessica CeceThis is such a very impressive and useful book! This book is so informative and extremely helpful. I actually bought this book for my sister who wanted to try growing bonsai and hopefully make it as their business. She said that the book is full-packed with informations they needed from growing the bonsai to taking care of this plant. The author discussed the topic well and clear that even beginners will understand. So much worth recommending book!0 of 0 people found the following review helpful. Holy Typo

Batman. A book for children not beginners. By Mark The misuse, of punctuation; misspelled words?!?!? that were autocorrected to something else entirely. Only accents the lack of helpful information. I may be new to bonsai, but this author went cheap.... It talks about colors and shows pictures, all the pictures are black and white. And contrast is off. Overall a waste of money. I gave 2 stars because I will cut the cover and make a bookmarks for my other bonsai books.

Are You Ready To Learn How To Grow, Maintain Enjoy The Perfect Bonsai Plants? If So, You've Come To The Right Place! Let me ask you a few quick questions...
