JYOTI PANDYA : Bonsai for the Topics before purchasing it in order to gage whether or not it would be worth my time, and all praised Bonsai for the Topics:

The art of bonsai making from an Indian perspective, with specific references to Indian climatic conditions, soil types, suitable plant species available etc. Gives valuable advice and tips on choice of right specimens, soil preparation, pruning, wiring, watering, methods and techniques for developing and nurturing bonsai, advance techniques for refinement and aesthetics of the art and much more. The author has been a renowned bonsai expert and teacher for

over 25 years with national and international exposure to workshops, conferences and competitions.
