Alex Johnson : Bookshelf before purchasing it in order to gage whether or not it would be worth my time, and all praised Bookshelf:

4 of 5 people found the following review helpful. Awesome bookBy MomVery awesome book. I was so goofy to not pay attention and thought it was a book shelf. But I'm glad I didn't because there are very cool ideas in here!1 of 2 people found the following review helpful. Home for my booksBy SusanI love this book. It fuels my imagination as to how I could contain and show all my books. The creative book shelves are wonderful.0 of 1 people found the following review helpful. OkBy alaskafanWe rather hoped this would be more than a coffee table book-- there are not even specifics about dimensions of these bookshelves.

Celebrating innovation and inspiration in one of the most basic of all home designs: the bookshelf. Bookcases are so much more than just a place to store ones books. They've become experiments in engineering and explorations into modern art, covetable in their own right. Financial analysts at Bloomberg have even used the IKEA Billy bookcase as an index of economic growth. In these pages you will find plenty of inspiration and diversity, from Juxtaposed, a shelf capitalizing on limited space to display seven books containing the worlds most influential religions, to Sakura Adachis Trick, a bookcase that constantly mutates into a table and two chairs. Shelves can even be re-imagined: the way laundry is dried in China informed Dutch designers Studio Ditte as they created their Kwan bookcase. So while we appreciate the efficient book storage of e-readers, let us marvel at physical bookshelves that are shaped like trees, or hold books upside down, or can even walk. This beautifully crafted book will bring joy to book lovers everywhere.

300+ color illustrations

[Alex] Johnsons book will remind our descendants of the whimsy and glory of making theater out of book storage. - The Wall Street Journal
Stacked cinder blocks and boards work just as well or as optimistic in this e-book world as the swirling, angled, wacky shelves in Alex Johnsons new book. - The Los Angeles Times
A very cool compilation of creatively designed bookshelves - The Chicago Tribune
Johnsons delight in the inventiveness of contemporary bookshelf design is infectious, and the care for and love of books imbued in these creations may enthuse even the most devoted e-book reader. - Publishers Weekly
Especially and particularly recommended to anyone whose ideas of interior decoration and design include rooms of bookshelves brimming over with their life-time collections. - The Midwest Book About the Author
Alex Johnson is a writer and designer whose previous books include Bookshelf and Shedworking: The alternative workplace revolution. Both of his parents were librarians.
