Noah has a gentle way with words and I appreciate his humility. Some concepts are redundant, but that never hurt anyone. The best part is realizing and confessing that not only is Jesus Lord, (which is enough) but that he OWNS our farms. We are simply caretakers. 2 of 2 people found the following

Awesomely UpliftingBy CustomerWhile a couple items are worth discussing w the author (if I can find his email), on the whole, I found it right on target w the whole attitude of the relationship between God, the Christian, our daily activities. Farming was part parcel of daily life in Bible times, so the enormous volume of advise given then is as pertinent then as now. Science can help, but God's wisdom is our ultimate Source.1 of 1 people found the following review helpful. Enjoyable and well written.By SJI am not a farmer and my calling is the medical profession, however I am passionate about Christians living out the truth of the Gospel. Mr. Sanders gives an excellent overview of how this can be done as a farmer and gives practical advice on how to do it and solid reasons why you would want to. I will apply the principles in my home garden!

Do you desire to glorify God through the way you farm? Are you tired of reading books on farming and food production that ignore God as Creator? Have you ever wondered what agriculture would look like if it was based on the Bible instead of on evolution, Mother Nature, or the latest manipulations of life by science? In *Born Again Dirt*, Noah Sanders encourages Christian farmers to evaluate their farming methods in light of Scripture. This book looks at various Biblical principles related to agriculture and provides examples of practical application. Topics covered include: -Designing farms as beautiful, fruitful homes. -Honoring God's design in farm production -Growing crops that honor the Lord -Marketing as ministry -The idolatry of modern agriculture -Advantages of the farming lifestyle - Starting a farm and making a living. Without claiming to have all the answers, *Born Again Dirt* seeks to inspire you to develop a vision for God-glorifying agriculture . This book is a must read for any Christian who is a full time farmer, backyard gardener, or for anyone who desires a more Biblical view of agriculture.

Noah Sanders . . . has written a groundbreaking book . . . I say Noah's book is groundbreaking because it is the first and only book I've ever read that looks at farming and agriculture from God's point of view, as revealed in Scripture. Every Christian . . . who either grows (or has a hankering to grow) a garden, or be any sort of larger-scale farmer, needs to read *Born-Again Dirt* . . . [It] is destined to become a classic in the world of contra-industrial, Christian-agrarian literature. -Herrick Kimball, Author of *The Deliberate Agrarian Blog*About the AuthorNoah Sanders lives with his wife and son near extended family in central Alabama where he manages a born-again dirt farm. Currently he oversees the production of chickens, eggs, vegetables, honey, milk, and fruit that go to feed his family and community. In addition to farming with his family, Noah enjoys playing the fiddle, reading, sketching, and blacksmithing. He also enjoys taking advantage of opportunities to provide encouragement to other young men regarding vision and biblical manhood.
