This is a rare book you'll tell ALL real red blooded American men and women about , buy it while your alive !By Karl Von SchmidtThis book has a piece of history that you probably never find on the internet or newspaper , because the federal government doesn't want you to know about what Michael Brown did in September of 1975 ( and anybody who did this would get away with it to because it is a self defense act) he attempted to bomb the United Nations auditorium where the podium is , he literally got "caught holding the bag" (bomb) and in this primer on the basics of filing a civil complaint ( ie:lawsuit) he relates to this heroic episode . He wound up in the Terre Haute Federal Pen for about three years on a 10 year setence , he literally wrote his way out ( and he did time with BIVENS , where the USC 42 1983 BIVENS ACTION was born ) i've since bought The Criminal Defendants Bible , The Drug Defendants Bible and \$130 worth of sample motions from the Rommel School

of Law and i don't regret it at all , to the contrary , i haven't finished buying what i want from them. You wont either i believe .0 of 0 people found the following review helpful.
