Duncan Long : Build Your Own Ar-15 before purchasing it in order to gage whether or not it would be worth my time, and all praised Build Your Own Ar-15:

0 of 0 people found the following review helpful. ar 15 bookBy rickProduct ok wish some illustrations were in color. Also wish it covered and describe the various types/configurations.4 of 4 people found the following review helpful. Good reference book for beginnersBy P C DentonGood reference book. Some of the pictures are would be better if

they were larger and showed more detail. Much of the information in this book is available free at various websites, which, makes this publication unnecessary to purchase. 0 of 0 people found the following review helpful. Five Stars By Steven L. Excellent

Have you looked at the various do-it-yourself kits and decided that they might be too tough to tackle? If yes, then this is the book for you. You can build your own AR-15 for no more than the costs of a stock rifle and have a one of a kind weapon that you can truly call your own. 5.5 x 8.5, illus. photos, softcvr.
