It will give you enought information to know where to go next in your search for building a garage. If you are handy but clueless on all it takes to build a garage this is a decent place to start but not much more.3 of 3 people found the following review helpful. in depth and helpfulBy travesYou really can't dumb down building a garage much further. This book has it. Now if you want to build a garage-mahal, you will need books on brick setting and such.1 of 1 people found the following review helpful. Excellent sales litBy cheyenneBI wish I could write sales literature like this. It is sales literature, but its technical content is superb.
