AlleyMy Uncle got the bug to build dog houses to sell as a hobby and to use up the huge scrap lumber he has accumulated over the years. He appreciated the book and I have seen him reading it while at his workbench. That's high praise to me...! I gave this book 4 stars as I didn't read it but was shown many drawings and photos from it as well as standard easy to read materials requirements.0 of 0 people found the following review helpful. This book is awesome! I am a womanBy CustomerThis book is awesome! I am a woman, with very little construction building and this book is a great step by step how to build a doghouse. I am very much a visual learner and the instructions are very clear and then followed by an illustration. I am making the shed type doghouse for my two larger dogs and I am confident I can do this thanks to this book.0 of 0 people found the following review helpful. books ok!By JenGood book, has good ideas. I wish it would have had more than a handful ideas. Was hoping it would also show more templates on specific dog houses.

Build a Doghouse That's Just Right for Your Dog!While your dog may be a full-fledged member of the family, there are times when you must put him or her outdoors. Some dogs, for example, become over enthusiastically friendly when visitors appear, even to the point of knocking down your unsuspecting guests. Other dogs enjoy having some time to themselves in the backyard. Whatever the reason that shepherds the dog out the door, a nearby doghouse within a fenced-in area provides a protected, private space for your dog and peace of mind for you. A proper doghouse is a canine retreat, a place where your dog can hide from the hot sun, the cold rain, the harsh wind, and the worries of the world. Mary Twitchell takes you through all the options for building or buying a comfortable and cozy shelter for your canine companion. Whether you want to modify a barrel, buy a molded plastic shelter, or build a wooden doghouse, you'll find all the information you need right here, from choosing the right site to proper building techniques to encouraging your dog to use the new doghouse.
