I started as a complete novice and was able to completely replace the deck of my house. It took a while but the DVD gave some key ideas that really saved me a whole lot of time. 1 of 1 people found the following review helpful. Scott Schuttner Is a Master Carpenter By jeremiah great video for the proper layout and execution of building a deck. The manufacturer Taunton press no longer makes this DVD, why I don't know. If you can find it on used you should definitely get it. 3 of 4 people found the following review helpful. Pretty
